Projects / Papers Presented

My Portfolio Website

<https://jaganathen.github.io/My-Portfolio/>

I am proud to showcase the website that I have created using HTML, CSS, and JavaScript.

Throughout the project, I utilized my knowledge of HTML and CSS to create a visually appealing layout that is easy to navigate and intuitive for users.

Cine City -Movie booking site

<https://jaganathen.github.io/Cine-City/>

My Cine City movie booking site is designed as visually appealing and user-friendly website using HTML, CSS, and JavaScript. While the project does not include back-end functionality, The project features a movie booking system that allows users to search and browse for movies. but does not include the full booking process. Overall, this project highlights my ability to create a polished front-end website and my passion for developing functional and intuitive user interfaces.
